

Engineering IT Consulting, Software Development and Training for Aerospace and Defence

What do we do?

We provide the Aerospace and Defence industry with specialist ICT services encompassing Software Engineering, Product Lifecycle Management (PLM) and Training.

Why should I be interested?

Continued repeat business from some of the worlds largest engineering companies, often in competition with suppliers much larger than ourselves, tells us our approach to business is right.

Who are our customers?

World leading engineering and manufacturing companies in the aerospace and defence sector such as EADS (Airbus, Astrium, Defence and Security, Eurocopter), BAe Systems, GKN, Bombardier and Hamilton Sundstrand.

We are also able to supply directly to the UK Ministry Of Defence and government departments under the '*framework agreement for technical support*' (FATS/3).

How do we work?

Growth through reputation, by provision of high quality services with a strong emphasis on customer satisfaction, delivered by industry experienced engineers.

In addition, we strengthen our services through key industry partnerships with complimentary and like minded businesses across Europe.

Where are we?

Our offices are located in Bristol, Hamburg and Toulouse amongst our customers in the aerospace and defence industries.
